

Transform your business into a manufacturing powerhouse

MFG READY
Powered by SAP Business One

Manufacturers today are operating in a quickly changing, increasingly challenging business environment. Clearly, you cannot keep doing the same things and expect outstanding results. You must work smarter, make decisions faster. Adopting the technology to do all these is the first step.

MFG Ready is a manufacturing business solution powered by SAP Business One. Now, you can run your accounting, purchasing, inventory, sales, distribution, and production in a robust and scalable application. It comes with new business tools for mobile, social media, and cloud to equip your transformation, growth, and competitiveness.

Developed by APPTech, powered by SAP Business One

MFG Ready was developed by APPTech to address the needs of continuously growing companies that need to automate and streamline their operations. It is powered by SAP Business One, the enterprise technology that hundreds of thousands of companies around the world use to run their businesses.

Complete manufacturing solution in 3 months

Companies looking to compete in the ASEAN integration understand the need for a centralized, automated system. With MFG Ready, you can have a robust business operation solution in 3 months. You can start running your business on SAP Business One now, and scale its features and functionalities as you grow.

Manufacturing. Oversee production activities from BOM, production orders, to material requirements. Speed up production planning, improve responsiveness to demand, and secure lead and delivery times. Increase customer service levels to encourage repeat and new business.

*Process manufacturing | Discrete manufacturing |
Bill of materials | Batch control management |
Production management | Batch control
management | Quality control | Product costing |
Production scheduling | Reporting*

Accounting and financials management. In a single system, manage your GL, journals, budgets, AP, AR, banking, and fixed assets. Look after your own cash flow and investments and open up more opportunities for growth. An error-free accounting and financial management results in less time spent in manually correcting books and more time in finding new revenue streams.

Accounting | Controlling | Banking and reconciliation | Financial reporting and analysis

Purchasing and operations. Systematically approach the entire order-to-pay cycle, from requesting vendor quotations, to creating purchase requisitions, to paying your vendors. MFG

MFG Ready is a manufacturing solution developed by APPTech and powered by SAP Business One.

- Multi-level BOM
- Bill of materials
- Quality control
- Product costing
- Production scheduling
